

EdD Students: Registration of Dissertation Hours and Candidacy

1) Dissertation Research and Direction – (ED 9989)

You may register for up to seven (7) semester hours of ED 9989 prior to approval of your Dissertation Prospectus. Your Major Advisor must consent to the registration of any dissertation hours prior to Candidacy.

To register, you must contact Mrs. Sonya Landrum in the Graduate Education Office (489, Education) to obtain an override and the Course Reference Number (CRN). Mrs. Landrum can be reached through e-mail at aj0044@wayne.edu or by calling (313) 577-1635. Registration is not automatic: You must obtain the CRN number and enter the CRN number and the appropriate credit hours in Pipeline—the same method as registering for a course. A CRN number will only be given after consent by the Major Advisor is confirmed.

2) EdD Candidacy

Candidacy in the Doctor of Education program requires successful completion of the Final Qualifying Examinations and an approved Dissertation Prospectus (on file in the Graduate Education Office, 489 Education).

Approval of the Dissertation Prospectus requires the following:

- 1) Successful defense of the dissertation proposal (prospectus) before your Dissertation Advisory Committee (DAC)
- 2) Completion of the Dissertation Outline and Record of Approval Form (requires signatures by all DAC members)
- 3) A Memorandum of Approval (if necessary) from the Human Investigations Committee (HIC)
- 4) A copy of the dissertation proposal (prospectus)

The above documents are submitted to 489 Education for final and official approval of the Prospectus and designation of EdD Candidacy. After becoming an EdD Candidate, you may register for the remaining semester hours of ED 9989 by contacting Mrs. Landrum.

Once you have reached the required semester hours of ED 9989, you may not register for any additional dissertation semester hours.

The EdD program does not have maintenance status credits. After reaching the maximum semester hours of dissertation without completing the Final Defense and if you need to use the library (including online databases) to continue work on your dissertation, please contact Mr. Paul Johnson at pjohnson@wayne.edu or by calling (313) 577-1635.
